Main Competency/Task Group/Level Indicator:

- Find and Use Information/Read continuous text/A1.2

Materials Required:

- Pen/pencil and paper and/or digital device

Learner Information

People interested in working in hospitals or long-term care facilities may take courses that focus on serving food in health care settings. Many Ontario colleges offer these programs.

Scan the “Georgian Food Service Worker” program information.

FOOD SERVICE WORKER

Program: FSWR
Credential: Recognition of Achievement
Delivery: Part-time - online
Length: 1 Semester
Duration: 252 Hours
Effective: Fall 2024, Winter 2025
Location: Barrie

Description

In this program, students develop the skills and knowledge needed to be an effective member of a food service team in health care facilities. The curriculum focuses on the role of the Food Service Worker and the importance of issues such as safety, sanitation and nutrition.

Career Opportunities

Graduates may work in long term care facilities, hospitals, health care institutions, schedule 1 facilities, group homes, retirement homes, meals-on-wheels suppliers, school cafeterias, daycare centres for children and the elderly, day nurseries, corrections institutions and camps.

Program Learning Outcomes

The graduate has reliably demonstrated the ability to:

1. communicate the role of nutrition and apply the principles of human nutrition to food production, in the health care foodservice environment;
2. discuss the standards and principles of diet therapy relating to a variety of illnesses and disease and apply these principles to the assembly of therapeutic meals in the health care foodservice environment;
3. provide a safe and healthy dietary environment, including food that is free from bacteria and other harmful contaminants, by adhering to government and departmental regulations relating to food safety, and injury and hazard prevention strategies;
4. contribute to the success and image of the health care dietary area by applying interpersonal skills that enhance employee performance;
5. function within the food service worker's scope of practice to support the goals of health care foodservice;
6. develop and maintain ongoing personal professional development strategies;
7. carry out cost control techniques in the operation of foodservice in the health care environment;
8. apply food and bake theories to all aspects of food preparation in health care;
9. implement cooking principles and techniques in the preparation of large quantities of various foods for the health care environment;
10. apply knowledge of healthcare foodservice systems and adhere to departmental and industry work standards.

Admission Requirements

- Applicants require good communication skills and should have Grade 10 level English (C).

Graduation Requirements

6 Program Courses

Graduation Eligibility

Students must successfully complete all required courses as noted below. Further details, if applicable, are noted under "Additional Information" above.
